

# **Do you have a child with 22q? We'd like to hear from you too!**

---

We want to know how 22q has impacted your child's ability to transition to adult healthcare! If your child is between the ages of 18-30, please share your thoughts with us!

We are asking for a few minutes of your time to complete a short online survey. All of your answers will be confidential.

You could win a \$30 Visa gift card!

To participate in this study (STU00203635) or for more information, please visit our Facebook page:
